"Different isn't always better, but better is always different."

Skills

Programming	Typescript, Kotlin, Java, PHP, Javascript, SQL, C# (Unity3D)
Frameworks	Android, Gradle, Laravel, AngularJS, Vue.js, NestJS
IDE & Platforms	ServiceNOW, VS Code, Android Studio, IntelliJ IDEA
Tools	Git, Jenkins, Unix shell
Languages	Italian, English

Experience

STMicronics

Hybrid (Catania, Italy)

IT APPLICATION MANAGEMENT

Mar. 2023 - ACTUAL

- Owned ServiceNow application management and enhancements for 2+ years, partnering with Business Analysts and Product Owners in a federated team to deliver against strict process and release constraints.
- Designed and delivered internal web modules with TypeScript, Vue 3, and NestJS, improving rollout speed and maintainability for business-facing tools.
- Implemented a RAG-based internal AI support solution that improved knowledge retrieval and reduced manual search effort for end users.

Synesthesia srl

Full Remote (Turin, Italy)

SENIOR ANDROID DEVELOPER

Jan. 2016 - Mar. 2023

- Built and maintained a reusable white-label Android starter used to launch new client apps faster, standardizing Clean Architecture, Rx-Java/Coroutines, and Dagger/Hilt across projects.
- Engineered custom Gradle plugins and Jenkins CI utilities that automated build workflows and improved release consistency across the Android codebase.
- Delivered production Android features across 3 high-impact domains: international sports events, BLE-based home automation, and Unity-powered game/AR modules via JNI integrations.

Ennova srl

Turin, Italy

MOBILE AND FULLSTACK DEVELOPER

Jun. 2013 - Dec. 2015

- Designed and delivered a B2C logistics integration pipeline (SAP to courier data warehouse) using cron jobs and LAMP, automating critical ETL flows for operations.
- Shipped PhoneGap/Cordova mobile applications for 2 user segments (consumer and business), accelerating delivery through a shared hybrid codebase.
- Built Yii-based CRM modules adopted by back-office teams to streamline day-to-day customer and operations workflows.

Presentation

Droidcon Italy 2017

Turin, Italy

SPEAKER: ANDROID - ADAPTABLE ARCHITECTURE FOR AGENCIES

Apr. 2017

- We shared our experience in the designing and development of an architecture that can be suitable for a wide range of apps with different purpose and complexity, both from a technical and strategic point of view.

Education

University of Turin

Turin, Italy

B.D. IN COMPUTER SCIENCE: SISTEMI PER IL TRATTAMENTO DELL'INFORMAZIONE

Sep. 2012 - Apr. 2019

Extracurricular Activity

Global Game Jam

Catania, Italy

DESIGNER & 3D MODELER

29-30 Jan. 2011

- Modeling game objects with Blender.
- Participated in design, development and art of a simple infinity run game.
